TAGLINE

AI for depositions.

Flag contradictions and deception in real time — during the deposition, not after.

BRAND PERSONALITY

Authoritative, not intimidating

Intelligence tool, not surveillance platform.

Precise, not cold

Analytical rigor with human consideration.

Warm, not casual

Charcoal and brass, not neon and black. Professional warmth.

Distinctive, not loud

Stand out through restraint, not spectacle.

Primary Logos

The Verlo wordmark is set in Instrument Serif — an elegant, high-contrast serif that conveys authority and warmth. The V icon uses the same typeface inside a charcoal rounded square, ensuring total cohesion between mark and wordmark.

Primary — Brass on white

Reversed — Brass on dark

Icon Variants

Mark — charcoal + brass
App icon, favicon

Mark — ink + brass
Light background alternative

Mark — square
LinkedIn, social profile

Mark — circle crop
Social avatar

SIZE REQUIREMENTS

The V mark must remain clearly legible at all sizes. Minimum: 24px.

Large (80px)

Medium (48px)

Small (36px)

Min (24px)

Clear space = 25% of mark height

Color System

Two complementary palettes: Brand Mark (charcoal + brass) and Product UI (slate + green).

BRAND MARK PALETTE — Logo, social, pitch decks, swag

PRODUCT UI PALETTE — Application, dashboards, data viz

SEMANTIC COLORS

COLOR USAGE RULES

- Brass palette ONLY in the brand mark — never in the product UI.
- Green (#16a34a) is used for UI accents and semantic truth indicators (not in the logo).
- Slate 900 (#0f172a) bridges both palettes as primary text color.
- Green = truth/verified. Red = lie/flagged. Amber = uncertain. Fixed semantics.

Type System

Instrument Serif for the wordmark. DM Sans for all UI and marketing. DM Mono for data, timestamps, and technical content.

FONT FAMILIES

- Wordmark:** 'Instrument Serif', Georgia, serif
- Primary:** 'DM Sans', -apple-system, BlinkMacSystemFont, 'Segoe UI', sans-serif

DO'S AND DON'TS

Do

- Use charcoal + brass for social/identity
- Use slate + green palette for product UI
- Maintain 25% mark-height clear space
- Use Instrument Serif for the wordmark
- Use DM Sans for all other brand comms
- Keep wordmark single-color brass

Don't

- Rotate, stretch, or distort the V mark
- Use brass colors in the product UI
- Mix typefaces within the wordmark
- Use the mark below 24px minimum
- Add shadows, gradients, or effects
- Use the old geometric slab V
